

## 300 Million Returned by the Great Iowa Treasure Hunt

I'm excited to share that \$300 million in unclaimed property has been returned to past and present Iowans through the [Great Iowa Treasure Hunt!](#) Reaching this milestone is a testament to how important the program is to families around the state and how the Great Iowa Treasure Hunt has become a trusted program for protecting lost and forgotten money and property.

Since I launched the program in 1983, I've made it my mission to reunite people and businesses with valuable funds and keepsakes that have been turned over to my office as unclaimed property. While this milestone is a great accomplishment, the job isn't done. With more than \$424 million still being held, there's more to be returned. Even if you've claimed before, check again! Names are continually being added, so there might be something new waiting that you never knew existed. Search [GreatIowaTreasureHunt.gov](#) for yourself, family, friends and your favorite organizations around the state to see if there is any to claim.

Anyone can have unclaimed property, so help us reach the next milestone by searching your name and making a claim if you have any in your name!
