

Business is Booming, Plus More to Come!

In May, I announced \$300 million in unclaimed property had been returned to past and present lowans through the Great Iowa Treasure Hunt. Business is still booming for the program as we've now reached \$304 million returned – and counting! With reporting season quickly approaching, I look forward to watching this number grow as new names are added to the list and more claims are made.

The Iowa unclaimed property law requires all businesses to review their records each year and report unclaimed assets to the unclaimed property program in my office. Starting November 1 (the deadline for businesses to submit their reports) and throughout the rest of the year, the newly reported properties are added to our unclaimed property database. As we approach this deadline, it's an opportunity for more individuals, heirs and businesses to come forward and claim property that is rightfully theirs. Even if you've claimed before, keep an eye out at GreatIowaTreasureHunt.gov to see if you have new property to claim.

If you're a business preparing for the reporting season, my office strives to make the process as simple as possible by providing online resources to help you. For more information, visit the [Reporting Property](#) tab at GreatIowaTreasureHunt.gov.
