

IABLE Surpasses \$10 Million in Assets

I am thrilled to announce [IABLE](#) reached \$10 million in assets in June 2021 and has since surpassed \$11 million. In recent years, we have made major headway with IABLE, increasing the number of total accounts and assets. We continue to see growth in the plan and I look forward to seeing where we will be this time next year.

This milestone shows how valuable saving with a plan like IABLE is for individuals living with disabilities and their families. IABLE allows those with disabilities the opportunity to save for expenses related to their disability to assist them in achieving a better life experience. Basic living expenses, assistive technology, personal support services, education and more are all deemed as [qualified withdrawals](#) with IABLE. The assets in an IABLE account are excluded when determining eligibility for [federal means-tested programs](#) such as Supplemental Security Income (SSI) and Medicaid.

Seeing the plan surpass \$10 million in assets, and continue to grow, has been an extraordinary accomplishment. It is a testament to how important IABLE is to individuals living with disabilities and their families. For more information on IABLE, visit [IABLE.gov](#).
