

## Message from Treasurer Smith

Spring is the perfect opportunity to freshen up your financial accounts to help ensure your assets don't become unclaimed property. This quarter's newsletter is "blooming" with tips on preventing your property from becoming unclaimed, which includes a document to help you keep track of your various accounts and financial institutions' contact information. I also share results from the recent Great Iowa Treasure Hunt claimant survey, a spring-themed list of people and businesses with money to claim and information for businesses needing to report unclaimed property.

Sincerely,

Roby Smith  
Iowa State Treasurer
