

Program Highlight: LIFT

Have you heard of my Linked Investments for Tomorrow (LIFT) program? LIFT provides capital to small businesses owned and operated in Iowa and is available for application through your local financial institution. One half of the moneys invested through LIFT will be available to small businesses that are 51 percent owned, operated and actively managed by one or more women, minorities or people with disabilities. Once a LIFT application is accepted, my office will purchase a certificate of deposit from the local financial institution for them to loan the funds to the borrower. For more information, visit IowaLift.gov.
