

Tips From the Experts: Claiming Unclaimed Property

By interacting with thousands of claimants each year, the staff in my claims department are experts when it comes to the process of reuniting individuals and businesses with unclaimed property. I've asked them to gather their expertise to provide tips to help you [make a claim](#). This is what they had to say:

1. Don't let the fear of providing documentation stop you from moving forward with making a claim. If you're having difficulty locating or providing a specific document, submit what you have, and our claims processing staff will work with you.
2. If you're unsure what documentation my office needs to move forward with a claim, don't hesitate to contact my office. If you've received a claim form, section C will also provide this information.
3. If you have submitted your claim and would like to check it's status, enter your six-digit claim number using the "Check a Claim's Status" feature at GreatLowaTreasureHunt.gov.
4. There is no fee to file a claim. If someone contacts you offering their assistance for a fee, keep in mind you are always able to work directly with my office at no cost.

Do you believe you are owed funds but don't see your name listed? [Contact my office](#) and my staff will be happy to help.

Take these tips from the experts and put them to use! Every year my office receives millions of dollars and new names added to our database, so check GreatLowaTreasureHunt.gov annually, even if you've claimed in the past.
